

Recfishwest Communication Policy

In order to fulfil our role and achieve the goals established in the Board's current strategy, Recfishwest as an entity and as represented by individual directors and staff must communicate in a manner that is consistent with the values of Recfishwest and the expectations of our members and key stakeholders.

In particular, it is the policy of Recfishwest that our communications are to the best of our knowledge and ability: honest; timely; factually accurate; represent the core interests of recreational fishers in Western Australia and contribute positively to public debate on the sustainable management and enjoyment of our aquatic environment.
